

Interactive Digital Signage

Product Features

Featuring high definition image quality, Parrot Products Interactive Digital Signage is used in the transportation, hotel, catering, finance, education & healthcare industries. The displays are effective in entertainment areas such as business advertisements in airports and for large supermarket product information displays.

With high brightness and high contrast ratios, displays can be placed in bright locations and maintain a clear picture quality. A security lock prevents the arbitrary replacement of storage media, and is suitable for placement in any public place.

Model	SF5000
Size	52"
Dimensions	2116 x 772 x 83mm
Resolution	1920 x 1080
Display Area	1226.0 x 719.2mm
Response Time	8ms
Brightness	500cd/m ²
Viewing Angle	178°
Contrast Ratio	3000:1
Aspect Ratio	16:9
Input Voltage	AC110~240V (50hz~60HZ)
Installation Mode	Floor Standing
Inputs	USB2.0/RJ45
Outputs	DVI/HDMI/YPbPr
